

OBSIDIAN

**built in a day.
demoed in three
minutes.
judged on everything.**

***the empire's nervous system —
a classified portal for the post-
Order-66 hunt.***

THE GALAXY IS SCATTERED.

Order 66 fell. Hundreds of Jedi survive across a thousand worlds — rebuilding, recruiting, learning to vanish. The Empire has legions, but no eyes.

one Fragmented intelligence

reports filed into a void — no single picture of the galaxy

two Isolated hunters

six Inquisitors, six separate hunts, no shared channel

three Open recruitment lanes

the Order recruits through refugee networks, unchecked

four No decision layer

sightings sit in ledgers while targets slip away

no grid = no hunt

every target is somebody's problem — and nobody's responsibility.

ON NERVOUS SYSTEM.

track → plan →
command →
disrupt

every sector, probe and citizen becomes a sensor in the Emperor's hand.

1

TRACK

live radar of ten sectors, probe drops, sighting logs — one grid

2

PLAN

intel escalates into dispatch — one board, planning to containment

3

COMMAND

every Inquisitor on one encrypted channel, answering in character

4

DISRUPT

sector-wide broadcasts that starve the Order of recruits

GATE → TYPED BOOT → PASSPHRASE → CLEARANCE ALPHA-7 → FULL NETWORK

THE WINDOW IS OPEN.

whoever builds the nervous system first, wins the galaxy.

TAM

the galaxy — a thousand worlds, unchecked

SAM

the empire — ten sectors, eight legions

SOM

the hunt — nine classified targets, now

✓ demoable live — judges operate it, they don't read about it

✓ original — zero canon, zero templates, zero stock assets

✓ complete — app, deck, film, 3D engine, design system

✓ offline-first — runs anywhere, forever

TWELVE MODULES. ONE HUNT.

01	Command Deck	hero status board
02	Galaxy Tracker	radar + probe drops
03	Wanted Dossiers	9 psychoprofiled targets
04	Intelligence	probe / ISB feed
05	Operations	kanban dispatch
06	Interdiction	propaganda studio
07	Inquisitor Uplink	encrypted comms
08	Imperial Archive	7 lore documents
09	Terminal	working mainframe shell
10	Manifesto	the Emperor's case
11	Hunt Metrics	purge completion
12	Standards	in-app design system

THE DEMO, THREE MINUTES.

a judge goes from the gate to the design system — everything real, everything clickable.

STEP 01-02

The entrance.

click to initialize → the terminal types itself →
passphrase: FOR THE EMPIRE

STEP 03-04

The command deck.

giant hero type, live HUD — then the tracker: click
a blip, open a dossier

STEP 05-06

Make it happen.

file the target to operations, drag the card to
ACTIVE, transmit propaganda to Torvane

STEP 07-09

The flex.

message an Inquisitor (he answers) · cat
targets.log in the terminal · open the design
system

BUILT, NOT PROMISED.

12

Working modules

one login, one network

every single one clickable

9

Original Jedi

psychoprofiled, printable warrants

zero canon characters

8

3D scenes

custom raytracer, written by us

we wrote the renderer

62S

Promo film

original score + voiceover

every sound synthesized

100+

Intel reports

generated live on demand

the galaxy never sleeps

0

External assets

no templates, no stock, no canon

everything is ours

THE OLD WAY VS THE NETWORK

we don't out-legion the empire. we out-coordinate it.

THE OLD EMPIRE

- X Reports vanish into ledgers
- X Six hunters, six separate hunts
- X Recruitment lanes wide open
- X Sightings never become strikes

OBSIDIAN

- ✓ One live galactic grid
- ✓ One encrypted channel, one doctrine
- ✓ Counter-recruitment broadcasts
- ✓ Intel escalates into hunts

3D — OUR OWN RAYTRACER.

no external software —
the renderer is our code

eight scenes from a vectorized numpy renderer built from scratch. no blender, no maya, no stock.

IRON PROTOCOL.

paper, ink, one red. the design system behind the network.

one red. that's the rule.

Authenticate · Dispatch ·
Hunt

DATA – PLEX MONO

SIGHTING // SECTOR 9 // 02:41

THREE OPERATIVES. ONE DOCTRINE.

AP

Anuj Phulera

DEVELOPER • AI • BACKEND

Builds the engine — zero-latency systems,
the AI that makes the hunt computable.

AC

Aarav Choudhary

VISION • MARKETING • IDEAS

Saw the decay of the old order and imagined
something absolute. Engineers the narrative.

JK

Jeehaan Kwatra

DESIGN • MEDIA • PITCH

Forges the aesthetic — every pixel, every
frame, every blade of the sigil.

ideation • engineering • design • film • pitch — all in-house

THE NET EXPANDS.

THE HUNT NEVER ENDS.

until the last ember is cold.
